

Q U A L I T O P S[®]

"StyleCAD has allowed Qualitops to re-shape the way we do business."

Time has been a major advantage with digital pattern making and cutting being much **more efficient**, taking a fraction of the time manual methods did in the past. Fabric utilisation has increased. This not only allowed us to have a **positive effect** on our environment with far **less wastage** but also allows us to be **a lot more competitive** in an always demanding industry. StyleCAD has become an **invaluable asset** to Qualitops and is one of the reasons we are still able to **sustain** in-house, local manufacturing in Melbourne."
